This team will be dedicated to design, develop, and implement our indices to track all information on each Enron business unit. You will notice that the total number of indices is quite large because it is to track all business units. This software will be used in the Report Viewer for Financials, IT, and EEL. It will also be used to retrieve and display data for the data warehouse. You will be notified when the EBS project team is able to discuss this project with you. In the mean time, you may look at the last 10 indices we have published in this directory. Elizabeth Shim Sr. Specialist Enron Net Works Risk Management x 3-4269 P.S. Dr. Howarth School of Architecture opens an arts school for I.T., including a new curriculum in the computer lab.An interactive blog enables students to submit their own entries to post their work online, and allows the readers to follow their work during the semester. It is possible to change the design of the blog, however, it is not possible to delete posted entries, so students need to be very careful when they submit their work. Blog posts are submitted individually at Click on the link for details on the new blogging software and how to submit a post.A review of the UK experience of 100 laparoscopic cholecystectomies. The technique of laparoscopic cholecystectomy is now so popular that the number of procedures done by all surgeons has grown exponentially. The safety and efficacy of this procedure is discussed, with particular regard to the special problems encountered in children and in the elderly. The results of some 1,200 patients who had a primary laparoscopic cholecystectomy between January 1989 and November 1992 at the John Radcliffe Hospital are reviewed and the findings summarised.The challenge of post-stroke generalised cognitive slowing. 1.
