CashComm Serial Key Free Download

Keymacro is an advanced e-banking software, which is suitable for all banks, card-companies and credit-companies. With Keymacro, you can save your customers data like their bank-acc. data, their company data, etc. with any number of customers. And your customers data will be safe from any loss. The bank accounts can be automatically saved at any time. KEYMACRO is an application for your customers, which can also be used for your business. And the data will be safe, safe and sound. With Keymacro you can create a list of current and past customers in your e-banking software. You can access your customers data from anywhere. So, you don't need to login to your e-banking application every time you want to check your customer's data. In the e-banking version you can get the account and the customer information of your customers. You can get a history of account activities, the statement of the bank account, the list of payed bills and other statement of the account. You can search by name or by the customer number of the account. You can find the account name, the last payed bill, the account-balance, the types of the account (e.g. checking, saving, investment). Also with Keymacro you can get the summary of the monthly payed bills and make a chart of this. Or you can make a pie-chart of the payed bills with certain account types. KEYMACRO is 100% compatible with all other e-banking software and online accounting software.

Keymacro has a powerful filtering system. You can filter all the data you want. So you can check the paid bills or you can search a customer's data by the bills or by the payed bills. Or you can check the customer's data, which were payed on a certain day, month or year. With Keymacro you can save all your customers' data for future use. It's possible to re-define the customer list for later use. So, you can make a list of your customers for a special project. Or you can get the customers data for a special customer or company. Keymacro can also be used for your company. You can create a list of the customers you want, with their data, if they payed any bills or not. You can see their bank account and their payed bills. You can also create a 2edc1e01e8

CashComm Crack Free PC/Windows
